Pages 6-20 Sets of four cards to sequence on each page. This printable is also the answer key.
Teacher Information

For each set of 4 pictures, ask the child or children:

“Of these four pictures, can you put them in order?”

Each set of four has different colors around the edge. The edges of set of four picture cards should match in color.

After some practice with one set of four at a time, perhaps the children could sort the entire set of cards in color sets. This would help get ready for another child or class, or for clean up.
Put the 4 pictures in order!
